

JONATHAN MALICAY

Web Developer & Computer Engineer

jonathan.malicay071717@gmail.com | Davao, Philippines | portfolio: jonathan-malicay.dev (sample)

PROFILE

Computer engineering professional crafting high-performance websites, advanced QGIS spatial mapping, and dynamic Power BI dashboards that turn complex data into actionable, visual business intelligence. Focused on driving innovation through seamless AI integration and automation.

CORE SKILLS

Full-Stack Development	JavaScript / React, HTML5, CSS3, Node.js, REST APIs
GIS & Mapping	QGIS, spatial data modeling, cartographic visualization
Business Intelligence	Power BI dashboards, DAX, data modeling
Automation & AI	Workflow automation, AI-assisted tooling and integration

EXPERIENCE

Full-Stack Web Developer — Freelance / Contract

2022 — Present

- Designed and built responsive, high-performance websites and web applications for small business and portfolio clients.
- Engineered scalable front-end interfaces and integrated database-backed back-end systems.
- Collaborated directly with clients to translate goals into functional, polished digital products.

GIS & Spatial Data Specialist

2021 — Present

- Produced high-precision spatial maps and geographic data models using QGIS.
- Delivered cartographic visualizations supporting territorial and land-use analysis.

Power BI Developer

2021 — Present

- Built interactive Power BI dashboards transforming raw operational data into executive-ready reporting.
- Developed scalable data models and DAX measures for recurring business intelligence needs.

EDUCATION

BS in Computer Engineering

(Sample credential — replace with your institution and graduation year)
